Objective

I am seeking an internship for Frontend or Backend development positions. I am always eager to develop my skills, learn new technologies, and work well in a team environment.

Education

Jambyl Innovation High College, Computer Science   Since 2023

- GPA: 3.74
- **Major:** Frontend Developer

Experience

- I accepted orders and created logo designs.
- I have made a website using HTML,CSS and JS for my acquaintances.

Skills

- HTML, CSS, JS
- Vue.js (basics)
- Flutter (mobile app development)
- Git, GitHub
- UI/UX Design (Adobe Illustrator, Adobe Photoshop)
- Logo design skills

Projects

City Taraz Website (HTML, CSS)   Taraz city

- I created a website about the landmarks of Taraz city.

Monumental art and the bas-relief (HTML, CSS, JS)   Bas-relief

- We create artistic spaces with bas-reliefs, murals, and 3D art.

Zhekas Doner Application (Flutter)   Zhekas doner application ↗
- A mobile app showing a menu and allowing users to place orders.

Personal Website   My Profile Website ↗
- You can view more details about my profile on my website.

BMW Website   BMW Website ↗
- This is a modern website about BMW cars that I created.
